ZEROZZANTE

A story of nature, of fine bubbles, of festive moments and of craftsmanship. In our family business, now in its second generation, we create delicately fruity sparkling juices that are never heated, with a fine perlage and a taste all their own. Choosing alcohol-free should never mean compromising. Over-sweetened soft drinks were not an option for us 35 years ago, and they are not today. That is how long our sparkling juices have been part of our story.

TRUE CRAFTSMANSHIP

Our love of nature and of everything it gives us day by day, and our passion for creating something special with our own hands: this is what inspires us, time and again, to capture that feeling in its purest form in the glass. The result is a refreshing, alcohol-free sparkling juice.

COLD PRESSED

Unlike common practice in the beverage industry, we never heat our juices to preserve them. They stay natural and keep their precious aromas. To make this cold-sterile bottling possible, we use only healthy, fully ripe fruit. Refined by hand in the traditional way and given a fine sparkle.

TRUE TASTE

True taste from real fruit. 100% fruit, made from white, aromatic Bacchus grapes. Cuvée N° 1 shines straw yellow in the glass. Fresh, lively and sparkling, with fruity aromas of fresh grapes, grapefruit and pale stone fruit and a floral touch. Fine bubbles frame the fruit of Zerozzante Cuvée N° 1, while a crisp acidity lends lightness and structure.

Cuvée N°1

Cuvée of white grapes (Bacchus)

ALCOHOL

Zero · alcohol-free (juice)

SERVING
