ZEROZZANTE

A story of nature, of fine bubbles, of festive moments and of craftsmanship. In our family business, now in its second generation, we create delicately fruity sparkling juices that are never heated, with a fine perlage and a taste all their own. Choosing alcohol-free should never mean compromising. Over-sweetened soft drinks were not an option for us 35 years ago, and they are not today. That is how long our sparkling juices have been part of our story.

TRUE CRAFTSMANSHIP

Our love of nature and of everything it gives us day by day, and our passion for creating something special with our own hands: this is what inspires us, time and again, to capture that feeling in its purest form in the glass. The result is a refreshing, alcohol-free sparkling juice.

COLD PRESSED

Unlike common practice in the beverage industry, we never heat our juices to preserve them. They stay natural and keep their precious aromas. To make this cold-sterile bottling possible, we use only healthy, fully ripe fruit. Refined by hand in the traditional way and given a fine sparkle.

GRAPE MEETS RHUBARB

With its lively acidity and the lower sweetness of the rhubarb, our Cuvée N° 4 is more tart than the other Zerozzante sparkling juices. This delicately rosé-coloured cuvée with its fine mousse shows subtle rhubarb notes reminiscent of fresh red raspberries, paired with floral notes from the white grapes. On the palate, a restrained sweetness is balanced by fresh acidity and lively bubbles.

FOOD PAIRING

Our alcohol-free Zerozzante sparkling juices shine as an aperitif, with food or simply on their own. With its fruity, tart character, Cuvée N° 4 suits refined fruit desserts that are not too sweet, as well as savoury appetisers or salted almonds.
